

Octopi is a modern and affordable SaaS TOS designed for small- and medium-sized container and mixed cargo terminals — replacing pen & paper, Excel and older TOS systems.

REDUCED OPERATIONAL COSTS & RESOURCES

INCREASED TERMINAL PRODUCTIVITY

REAL-TIME EDI REPORTING

EASY-TO-USE INTERFACE

ABOUT US

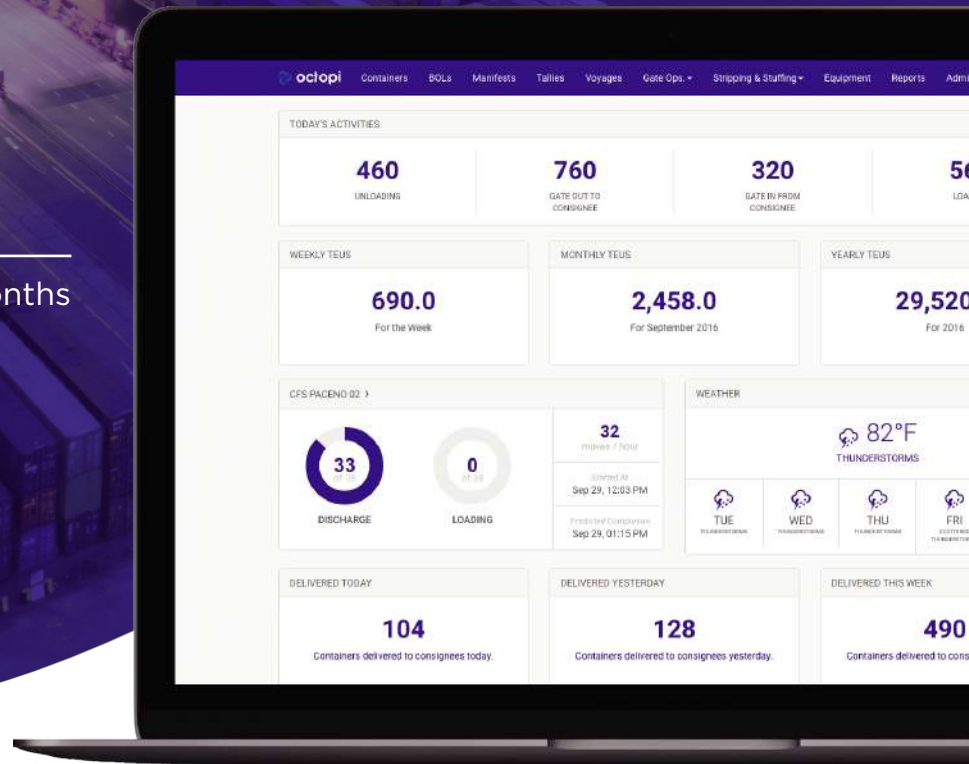

Founded by software engineers with 20+ years of experience in software application development and owned by Navis, the market leader in global TOS solutions, Octopi delivers a cost-effective and easy-to-use TOS solution with anytime, anywhere access at a simple subscription price.

This cloud-based terminal operating system enables terminals to tap into the latest TOS technology and expertise with low cost to get started, no maintenance fees and no third party software. Octopi enables its customers to better manage their operations in vessel planning and yard management, track cargo and communicate electronically in real-time with their commercial ocean shipping partners.

CASE STUDY

Port-Au-Prince, Haiti
